*Visions*

Mission Support Note:

Human Realm - Charitable contributions are tax deductible

Spiritual Realm – God knows our hearts & observes our actions

Mission Support Statement:

"For those who are tired of the trash, the lies, the twisting of spiritual truths that is found on video today, ..... there IS something you can do about it."

Bring the movie to your town:

**Local movie showing – Matching Fund**

Contribute to a reserved fund that is set aside for matching the funds of a local person or group who wish to help bring a God Honoring movie to town. The most famous recent example is that of *"Fireproof"*. This was a hugely successful film, but one that probably would not have come into town without the excellent work of one single fostering working mother. No such fund existed, so she had the prayer, the vision & the boldness to guarantee a very large deposit herself.

The intent of a fund would be to equitably share the risk/reward of hosting the film with interested parties who are willing to be strongly involved with the publicity/ticket sales in order to help attract a large crowd. The Fireproof effort turned out to be regional, not just a one city involvement.

Present goal - have a revolving \$3,000 fund, applied as a match to successful movie events. The base money would be replaced by profits & be used for the next movie. Shared profits would be used for VMV funding & help be self sustainable.

**Film Festival – Local & Worldwide videos**

Contribute to a reserved fund that is set aside for starting & sustaining an F/M area Film Festival. The intent is to support local video creation as well as show efforts from other believers, worldwide as well as from the US.

Help grow the effort:

**VMV equipment**

The old saying is alive & well..... "You get what you pay for". This doesn't apply to Salvation, but it certainly does for video/audio equipment. VMV is slowly building up a base of equipment & software for video & audio work. This, could use some help.

**Video Library**

This is not well known, but there are several hundred Christian productions created already. Help us with video & monetary donations to build this loaner library. This is also a way to share some of your favorite videos & let more people know about them.

Vision Statement:

*"What actions can we take now as part of God's timeline & plan for the world? What can we do today that would be a faint glimpse of the Millennium Reign with Christ? How can we change today's world with a Millennial Vision?"*
